RE: Freedom of Information Act Request

Dear Mr. Burns:

We received your letter of January 4, 2015 and the additional information you are requesting in addition to your request dated December 19, 2014.

With regard to your latest request, it is not a request for public records. It is a series of four interrogatories that you wish me to answer. No answer will be forthcoming regarding your interrogatories.

With regard to your original request dated December 19, 2014 to inspect legal invoices and filings, we can accommodate that request in part. You may inspect the invoices after we have redacted all information in those invoices protected by attorney-client privilege. You will be charged staff time involved in redacting those documents as allowed by law.

Your request to review documents related to lawsuits can also be met, but again after we redact all information in those files protected by either the attorney-client or work-product privileges. As an alternative, we can provide you with a list of litigation with docket number and the assigned court, and you can review those files with the appropriate clerk of court.

The above information is available for your review on either Thursday January 8, 2015 or Friday January 9, 2015 between 9:00 a.m. to 2:00 p.m. Please e-mail or fax to our office which date and time is most convenient to review the information you have requested. If you decide to have copies of these documents our policy is to provide the first 4 pages free of charge and charge \$1.00 per page for any subsequent pages or you may bring in your own personal scanner and scan the documents you wish to copy.

Your courtesy and understanding are appreciated.

Sincerely,

Erroll G. Williams, Assessor
Parish of Orleans
